VISION FOR AFRICA – SIERRA LEONE

DEAR EVANGELIST JOACHIM,

Acts Outreach Missions was born after the end of the eleven years of civil war in Sierra Leone in the year 2000. It is a local indigenous outreach ministry whose vision and mission are as follows:

TRANSFORMATIONAL DEVELOPMENT

a) Mission Statement:

Acts Outreach Missions strong core values are based on Isaiah 58:7-12, Proverbs 22:9. Bringing the Good news of the Gospel and supporting the real needs for the oppressed, marginalize, abandoned children and families are the goals and objectives. The Building of Sanctuaries for Fellowship is very important since most rural areas have no church where people will come to worship. Church Planting is essential since there is increase of mosques all over the country.

VISION FOR AFRICA – SIERRA LEONE

b) Feeding the Hungry:

Many Children became Orphans and destitutes during and after the end of the civil war when caring parents lost their lives. Hunger and Starvation erupted which resulted in many deaths in both the Rural and Urban areas. Acts Outreach Mission embarks on local feeding of Rice and clothing to the destitutes. Orphans and Destitutes can become children of Champion with a sense of hope if we snatch them off the streets and candle their world. We seek your help and support for Acts Outreach Missions to impact lives in our rural and urban areas.

I bear the burden to appeal for the construction of a Home for the Orphans. A home which can shelter a Hundred Orphans and destitutes. This will serve as a Centre for feeding, training and raising the children in the fear of God both spiritually and mentally. This will serve greatly as a domain of change for the well being for the Orphans and families.

VISION FOR AFRICA – SIERRA LEONE

c) Primary Schools:

We appeal for the construction of Primary schools to upgrade the standard of education here in Sierra Leone after the end of the civil war. We see that basic education for Orphans and destitutes are important in the society. A school for the Orphanage Home should also include Vocational Training Center where vocational skills will be taught.

d) Health Care Clinics:

I prayerfully appeal to partner with Mobile Health Care Volunteers and Organisations to respond to this call to come and treat and teach on infectious diseases and its prevention such as Malaria, Typhoid Fever, Cholera in rural areas where war abandoned families do not have access to Health Care.

VISION FOR AFRICA – SIERRA LEONE

e) Agriculture:

The backbone of a strong nation is in Farming. Our plan is also to involve into Subsistence and Mechanized farming for the planting of local food stuffs such as Maize, Yams and Livestock. The implementation of Farming and Livestock investments will boost the food supply; strengthen the economy and job opportunities. It is my prayer and humble plea that this vision should and will never die. We need your prayers and support for Acts Outreach Mission to fulfil and accomplish this Great commission commanded by Jesus Christ. We are grateful and thankful that we can do all things through Christ who strengthens me.

f) Mission Studies:

I would like to upgrade strong studies in a recognised Bible College focusing in the area of Mission and Evangelism. The vision speaks and the appointed time is now.

Gods Peace and Blessings

Yours in Christ

Pastor Sam King
